SUMMARY

Actively engaged in learning and applying knowledge through hands-on experience in multiple technologies and real-world projects. Pursuing a Bachelor's degree in Computer Applications with a strong interest in building practical and innovative digital solutions. I'm continuously enhancing technical skills through exploration, experimentation, and collaboration.

PROJECTS & EXPERIENCES

Web Design Intern (Neon-Devs Company (NDC), Lalitpur) May 2024 - Jan 2025

- Designed and developed responsive web pages using HTML5, CSS3, and JavaScript. Also collaborated with the team on full-stack features using the MERN stack.
- Participated in daily standups and code reviews to improve project quality.
- Implemented clean UI/UX practices and Used Git and GitHub for version control and collaborative development.

FarmingSathi – Full-Stack Web App (College Project) Jan 2025 - Present

- Developng a smart farming assistant web system to guide farmers from planting to market.
- Implemented features like crop tracking, AI-based recommendations, and market linkage.
- Technologies: Node.js, Express.js, React.js, MongoDB, MySQL

IV Capture – Image & Video Search App 2024

- Created a web app that allows users to search and view images and videos based on text prompts; Integrated external APIs to fetch dynamic multimedia content; Technologies: React.js, Node.js, Axios, External Media APIs.

Hotel Annapurna – Hotel Booking Web App 2023

- Created a web app that allows users to search and view images and videos based on text prompts; Integrated external APIs to fetch dynamic multimedia content; Technologies: React.js, Node.js, Axios, External Media APIs.

EDUCATION

Bachelor of Computer Applications (BCA) Dec 2021 - Present

Tribhuvan University

- Relevant coursework: Web Programming, Software Engineering, Database Systems, Networking.

Higher Secondary Education (+2) Jan 2017 - Dec 2018

Shree Rastriya Secondary School, Baitadi

- Completed under the National Examination Board (NEB), Nepal

KEY SKILLS

- JavaScript, Java, C, C#
- MERN Stack, Wordpress
- Git, GitHub, VS Code, Postman, Figma
- System design
- Problem solving.
- HTML, CSS, ASP.NET, Swing
- Tailwind CSS, Bootstrap
- Nepali, Hindi, English
